Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Wednesday 21 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Becoming sunny after a cloudy start, isolated showers possible later.

Today:
A rather dull start with areas of mist and low cloud. Good sunny spells developing by afternoon, but the odd heavy shower can't be ruled out later in the day. Very warm again inland but cooler towards the coast. Maximum temperature 27 deg C (81 deg F).

Tonight:
Any evening showers soon dying out to leave a dry but humid night. Some long clear spells at first, but cloud spreading east across the region overnight. Minimum temperature 14 deg C (57 deg F).

Thursday:
Areas of low cloud and mist will become confined to coastal areas during the day as sunny spells develop elsewhere. Warm again inland, but much cooler where it stays cloudy. Maximum temperature 26 deg C (79 deg F).

Outlook for Friday to Sunday:
Friday a little cooler, with sunny spells developing away from the coast. Cooler and cloudier on Saturday, then bright or sunny intervals and a few showers on Sunday.
